

## DADI JANKI – 9 APRIL 2011 – SHANTIVAN WHY AM I STUDYING RAJA YOGA?

Baba is praised on the path of bhakti because He made our praise the same as is. Before we called out to Him saying that we were without virtue. It is only He who could come and make us complete. God's wish is that I become complete. However, without having all virtues the soul cannot become complete.

Our Baba is SO wonderful. First we say, "My Baba" and then we say "Our Baba". He is firstly mine personally and then He also belongs to the souls of the entire world. With Baba are all 4 forms: avyakt, sakar, incorporeal and Narayan. The Incorporeal Shiva came into the body of Brahma to make Him avyakt. His future form is Narayan.

We are celebrating the Platinum Jubilee. We have become old and

yet we are still studying. We never have the thought that the study is over now. Our Father is such that He just wants us to keep on studying! We won't find another father in the whole kalpa who asks us to study for our whole lives! He tells us to be a karma yogi all day and become karmateet. He doesn't let go of us! He keeps on at us and we just say, "Ok Baba! Whatever you say"! He doesn't give us any holiday from this study. Before destruction we have to study and pass well. That is what this time is for. For us to study well and pass with honour. This has not happened yet and that is why destruction is on hold.

We are the royal children of the royal Father. In the Gita it says, "In order to make you the king of kings I am teaching you Raja Yoga". Pre-

viously we did not understand this. Now we can see what a beautiful Raja Yoga He is teaching us. I need to keep the reason for learning Raja Yoga in my mind. What is that reason? We are being taught Raja Yoga so that we can attain a kingly status. We are becoming kings of the self first and we make others equal to ourselves. When there is spiritual love between us, words are no longer required. If you wish to claim a royal status it is not sufficient just to repeat what Baba is saying. Do you follow what Dadi is saying?

Every day in the Murli Baba gives us 'love filled' remembrance. It is not enough just to have remembrance – my remembrance needs to be filled with love in order to make me complete.

*Om Shanti*

**They don't understand that their condition has become like that because of the influence of bad company and that they have many strong vices. Why do you say that you fell because you experienced storms of Maya? It all depends on you!**

## DADI JANKI – 31 MARCH 2011 EVERY HOME IS BABA'S HOME

You are Baba's lovely, beloved children. Each one of you should look at yourself and see how lovely you are and how much Baba loves you, and ask yourself whether you are a son or a daughter to Baba. Today Baba is coming for the last time this season and we are filled with Baba's power of love.

Are you a lotus flower or a rose? Those who live in the household, whilst being loving and detached, are Baba's lovely children who become the special jewels. When I read today's murli the whole world came in front of me – all of you, wherever you are, in your households have made Baba belong to you and have transformed your households into Baba's homes. You are such fortunate children; you have surrendered everything to Baba. In remembrance nothing belongs to me; everything belongs to Baba – this is your attitude.

Around the world there are instruments living in the household who are Baba's wonder. Baba coloured them with His company in order for service to happen.

According to drama, the part played by those who have been in the yagya from the beginning right until the end is a special one. Since the beginning some have left – they either left the body or left Baba – but others have remained right until the end. I, the soul, am playing a very wonderful part, from the beginning, through the middle right to the end. All of you who have been here from the beginning and still continuing to serve, who are mature and physically elderly, have very strong bones. You never allow yourselves to fluctuate. In fact, you make those who are wobbling strong and stable.

Baba has merged all His children in His arms. Now, we have to pay attention to our thoughts, words and deeds, so we receive blessings from everyone.

*Om shanti.*

## DADI JANKI – 1 APRIL 2011 – SHANTIVAN THERE ARE TWO THINGS NOW; TIME AND THOUGHTS

Yesterday Baba told us that our controlling and ruling power should be in our hands. We don't have to control or rule others but we do have to control our own selves. It is time to kick away waste thoughts and to use my time and thoughts only for self benefit and for service. I have to put a double lock on waste thoughts and I have to stop them. Look at the condition of the world. Is this the time to get lost on a path of waste thoughts with no destination? We do have to consciously create thoughts to make things clearer for ourselves. BUT be careful with the thoughts you create! Baba has told us that our time and thoughts at the Confluence are very important. I am folding my hands in front of you and saying, 'See the time and look at your thoughts'. Baba has had so much mercy for us; He has so much love and compassion and this is why He is clarifying everything for us. .

Baba has told us that we need to become the total conquerors of attachment. How can I do this? Manmanabhav. I have to remember Him alone and withdraw my mind and intellect from all other direction including my own body, other people and material possessions. It is now time for this practice. I have to remain the embodiment of awareness. Sakar and Avyakt BapDada have instilled this in us. Baba has told us to become combined with Him. What will happen if I become combined with Baba? I will become a Shiv Shakti and as such, everything will become easy for me. Shiv and Shakti – nothing else in between. Have this practice in one minute. Yesterday was the last turn of the season and my heart is palpitating! I feel Baba has worked SO hard on us. And the essence of all of that is Shiva and Shakti. I and the power of God. If there is any-

thing in between – even slightly, then I cannot experience being a Shiv Shakti. If you are a true Shiv Shakti, others won't be able to see your name and form.

It is through the intellect that our sanskaras get transformed. Baba is making our intellects divine. Our intellects were previously rough and full of stones ... the Alchemist is the only one who can change the iron into gold. He is the Intellect of the Wise because He is the One who inspires each one's intellect. In fact, what should I keep in my intellect except knowledge? Baba has come to show me how to make the intellect pure, elevated, quiet and filled with determined thoughts. What is there to speak about apart from gyan? Baba has been teaching us what to speak since childhood. If you try to prove yourself or if you are stubborn then you fail and you cannot pass with honours. Baba has given me a divine intellect. My task is to use it to transform the self and for service. Nothing else. Do this and you will become mayajeet and the conqueror of the elements.

There are 5 elements and need to have the sense to say them in this order: sky, air, fire, water and earth... All this five elements are in the body. Within the soul there are the mind, intellect and sanskaras. Baba has told us to look at the activity of our eyes, our hands, our feet, our ears... and to become the conquerors of maya and matter. The elements have become totally tamopradhan and the nature and sanskaras of souls have also become tamopradhan. This is the end of Kaliyug and God has to come to destroy unrighteousness and to purify the elements. Lying, cheating, stealing and criticizing – people cannot live without these things nowadays. They feel

they need to lie a little, steal and cheat a little... In fact, to do these things is to commit sin and Baba has come to show us how to stop committing sin and how to accumulate in the account of charity. If you commit sin you will bring yourself into bondage and you will have to suffer for it. There should not even be any slight sin remaining. Baba is telling us to become charitable souls. I just have to give my support to others and they will become charitable souls. I have to take them into the depth...

Service started on such a small and simple level. Look at where we have reached today. So what is our task now within service? It is to make sure that there is no corner of the world left 'untouched' by Baba's gyan. No-one should be able to say in the future that they 'did not know'. These are the last moments to make effort and the last moments to do service. Don't talk about September, October, November – who has seen September, October and November. Do what you have to do right now! It's easy to create plans with intellect but it is now the time to keep my intellect plain. Some create a plan and then think, 'Oh, my plan is very good. I will have influence over others'. They keep their intellect very busy in this way. Baba tells us to be careful what we think and say. He tells us to look at our own stage first, to make it good and then to do service with that stage. This is real service – working with my stage. Don't become tired whilst making effort or doing service. It is someone with a gross intellect who gets tired. If you have a deep and subtle intellect and keep taking from the One who is giving you will never get tired. It's a wonder – the One who is giving doesn't get tired but the one who is taking does!

*Om Shanti*

*Continued: Brother Nirwair - 16 March 2011 – Shantivan  
Follow The Father*

By being close to sakar Baba, I learned a great deal. Shiv Baba is perfect anyway but this one became perfect from imperfect. Brahma Baba had his own specialties from the beginning, even in devotion, but he walked on the path fully and accurately. He showed us the difference between bhakti and gyan in his daily activities.

Baba never had tilak or a ring nor mala beads, nothing, he was very simple. Just kurta and dhoti, that was his dress. But the personality, the shine on his face was something else - very attractive. When Baba would give drishti even the new ones got visions. So, follow father and make your internal stage so high that you become content

with your own life. Your enthusiasm will make others enthusiastic naturally. In fact, as much as I make myself an example, I become a world benefactor.

Baba showed us how to keep our intellect in unlimited. A Brahmin soul can be anywhere but his drishti, attitude, words; actions become instruments for the upliftment of many souls. As BKs we need to pay attention to our actions. If we don't then we do disservice and many can be affected.

People will then point their fingers at us. We are world benefactor souls. We need to understand our responsibility very well. Our every thought and every word should be

beneficial. So only Baba says stay in remembrance constantly. The effect of this will be on our every action. We have a Father who has so much love for us that He cannot remain without praising us! Each one of us should be so proud of every brother and sister in this family that we maintain elevated feelings for each other. Wah! I am meeting my family after a kalpa! Be light, be very enthusiastic. Holi means finished. Meet Baba and the family with so much love.

If there is anything in your mind give your worries to Baba and become light. Then you will become holy, pure. We are Baba's holy-Hans children and we play Holi with Baba.

*Om Shanti.*

## DADI JANKI – 20 MARCH 2011 – TO LONDON (BY PHONE) BE WITH THE SUN AND BE THE SON...

**Be with the Sun and be the son...spread peace in the world**

Om Shanti. Today is Holi and the Murli is on Holi, and we will celebrate today...from Baba, myself and the whole family accept love and remembrances.

In this world we are guests (mehman) and yet there is a need to be great (mahan). When we are ordinary, time is wasted. In today's murli Baba is saying to remain accurate, active and attractive. Who will remain accurate? It is only when we are accurate can we be active, then others will feel the attraction and say "This one is not ordinary."

In my thoughts, words and actions I should keep Baba's memorial within me, so I become a memorial for others.

In our hearts there should be no-one apart from Shiv Baba and Brahma Baba – what they have said, what their character and virtues are – no one except these two. No subtle waste thoughts should be inside us; when we pay attention to keeping them out, Baba gives us extra subtle power.

No matter what the body is like, keep the face happy and have only Baba in the mind.

When someone leaves the body, they leave behind a memorial. We have sakar and avyakt Baba's sustenance and when we use this in our life, then it is a worthwhile life. If we keep anyone else in our heart or need anyone else in our life, then we fail.

Dadi is sitting in Madhuban remembering everyone. How many names can Dadi mention.? Once

Dadi said to Baba, "Baba please remember this one and that one." Baba replied "Instead of taking the rosary of each one's name, why don't you become a rosary around Baba's neck?"

Understand who Baba is and who we are. Understand we will go with Baba; for 84 births we will be with Baba. Until Brahma Baba comes down we are going to go back up with him.

Today is Third Sunday and the whole world knows the BK's meet for one hour (between 6.30pm-7.30pm) to spread peace in the world. Do this so well that we honour Baba's title of World Benefactor.

Why do we say Sunday? Because we sit in front of Baba, who is the spiritual Sun and we are children of Baba, the sons. So Sun and son.

*Om Shanti*

## BROTHER NIRWAIR - 16 MARCH 2011 – SHANTIVAN FOLLOW THE FATHER

The topic is easy because to copy is easy. If you take everyday's Murli, analyze it and elaborate on it you can understand the depth of the One who spoke it. We can also learn how Baba lived his life from the Murli. Baba himself became an embodiment of the teachings and as such, an ideal example for us children. He moulded his life according to gyan. When you hear the stories of Baba from Dadis and seniors, you may wonder whether they are talking about sakar or nirakar (incorporeal) Baba. If we pay full attention we can understand that Sakar Baba's teachings and presence are within every Murli. In fact, he explains every single thing so clearly. However, if we don't pay full attention while listening or studying, we miss it.

We used to play with Sakar Baba and it was through that playing that we got to know him. Brahma Baba's life was completely unique from the people of the world. The saints and holy men of this world would allow one to touch their feet or bow down, but our Baba never allowed anyone to touch his feet. Baba used to say, 'I am a student as you are'. You cannot touch the feet of Shiv Baba, because he doesn't have feet. And this Baba (Brahma) is just like you, so you can't touch his feet. Baba addressed children so respectfully, even in letters and murlis: Children are the jewels of the eyes, masters of the heart-throne, great fortunate ones, etc.

Children could take dristi from Shiv Baba while Brahma Baba could not. He kept himself so incognito. He brought every word of Shiv Baba's into practical form and became a practical example for human greatness. He showed how elevated the human life could be, how drishti, vritti, words could be. We experienced this from Sakar Baba's life.

We had such feelings of belongingness and closeness to Baba that no one could hide anything from him. We felt that we would benefit a lot by being honest with him. Along with Shiv Baba Brahma Baba was also a world benefactor. Of course there are ups and downs in our efforts but Baba always explains with so much love in order to create intensity in our efforts. We need the gyan of what accurate effort actually is and Baba gives this to us.

Baba used to write letters to us, urging us never to miss amrit vela – that there is no other way to truly purify the soul. Even if we were sick Baba told us to have amrit vela lying down but never to miss it. Amrit velum is the basis of the whole day. Murli is also essential. One who has accepted Baba from their heart will never miss Murli. We cannot become deities without the Murli. Realisation depends on the Murli. We become aware of divine virtues through the Murli. Every version is worth millions.

When we used to come to Madhuban from Bombay by train we reached after amrit vela and Murli. Baba would hug us, feed us toli and then say, "Child, today's Murli was very very good, Baba has spoken very nice things in Murli. Take a copy and read it before you eat. Baba had so much value for the Murli, don't even ask! He never missed a single day, even when he wasn't well.

Baba was concerned about the children's thoughts. If he didn't give the Murli what the children would be thinking? When Baba became Avyakt, he said that Baba would continue to meet and refresh the children. Baba had a very clear aim for the children to reach their angelic form. Amritvela and Murli are our main foundation. Seriously consider these two things in your life if you

want to experience supersensuous joy. Read the Murli 3 or 4 times a day. We saw how Mama and Dadiji would keep picking up the Murli to read. They didn't read the papers or listen to the news. Nowadays there is only sorrow in the news. The whole world has become a world of sorrow. Baba's world is the highest world. Roam only in Baba's world and there will be constant benefit.

Baba wants every child to become equal to the Father. Now we have to be concerned about this. If you keep your thoughts elevated and send good wishes then many souls will receive comfort. Practice in such a way that you will be able to leave your body without sorrow or suffering whilst sitting alone. Do you practice this? It is time to go beyond sound... beyond words. Do this and you will practically experience soul power. At this time it is very, very necessary for the self, for the world, for the sorrowful souls.

We have heard it many times but until the mind connects with Baba internally we cannot experience peace. We continuously need to experience the ascending stage. For this very fine checking on the mind is needed, subtle attention is needed.

There are so many hours between when we wake and when we sleep. Ask: How much did I actually remember Baba? How much time did I make successful? How much did I remain soul conscious? There is big difference in practical. Baba used to pay lot of attention to this in his life. When I first met Baba, I noticed his aura and his power. When we came in front of him we forgot what we wanted to say. Baba's dristi made us soul conscious instantly. We could feel his good wishes for every soul.

*Continues on page 11*

## DADI JANKI – 31 MARCH 2011 – SHANTIVAN HOW CLEAN IS MY MIRROR?

Understand that there is nothing worth seeing except for that which is good. Someone may even try to attract your attention by saying 'Look, look...'. No, there is nothing worth seeing except that which is positive. If you look at or listen to anything which is not good then what will happen to your drishti? Your drishti will become bad. You will then see more negativity. If you keep seeing negativity you will get drawn more and more into it. We know what is going on in the world and what is going to happen. There is no need to watch and think about it again and again. If you do then your drishti and your attitude will be deeply affected. I have to make sure that my outlook and my attitude are very, very good and divine so that I can become one who gives visions. My image has to be such that people get visions through me. Baba has cautioned us about our drishti and our attitude.

Baba is a mirror for us. We also have to be honest and look in the mirror of our own heart. Look in the mirror of your own heart and make yourself very clean. If anyone asks us how we do meditation in the morning we tell them that we clean our own mirror at that time. We look deep inside at that time and clean the mirror of the heart. The heart needs to be pure and clean. When it is clean you will know what is in there. If it is not clean then you won't even be able to see what's in your heart. When you are moving around it is also necessary to look in the mirror in order to know what your face and behavior are like. From this practice you will become aware of what your mistakes are and you will be able to ask Baba for forgiveness for those mistakes. On seeing you looking in your own mirror Baba will say, 'OK, at least now you are looking in your own mirror'. He will be pleased to see you looking constantly in your

mirror. Look carefully at yourself and ask: What are my mistakes? What are my weaknesses? And then look at Baba. Baba is so good. He is a mirror for us and we have to become like Him. There is really no point in looking at any other person. There is only benefit in looking at Baba.

Baba has given us so much of a unique type of happiness that whatever happens in the world our happiness does not disappear. He has also taught us that when we give that happiness it does not decrease. Some serve a little and then get tired. In fact, if you were to make it your priority to give happiness then you would never feel tired. You would be using your time in such a worthwhile way! My happiness should be such that on seeing me, others become happy. This is an old car (the body) but Baba gets His work done through it. Have love for your old car and keep it in such a way that Baba can get His work done through you. It is the time to make sure that I am driving my car very well and very carefully. I am the driver of this car and a driver needs to know not only how to drive well but how to put oil, water and petrol in the car. He needs to know to apply the brakes and change gear... A driver needs many skills. The number one quality when driving is alertness. In the Gita they speak of a horse and chariot. When you are in charge of a horse, you hold the reins and indicate where you want the horse to go. You guide the horse gently but firmly. There is no need to beat the horse. Here we are also charioteers and we drive. For this, first stay in self respect and give respect to others. If you speak about anyone else's mistake beware... there are deep consequences of karma...

Don't worry what anyone else is doing – they are fine – they are

doing what they have to do. These eyes, ears and mouth are not for looking at anyone else. They are not for listening to things about others, neither are they for talking about others. They have been given for paying attention to my own self. The knowledge given by the Supreme is extremely subtle. If you want to get to know Him, you have to have a true desire for that... I am a soul – that is easier to know but as I soul, if I want to really know God then I need to have a very deep desire and love. Then you will be able to recognize Him.

Now is the time to finish all the karmas of the past. I have to finish these in such a way that I don't have to suffer through the body, relationships etc. It is time to do elevated karma for the future new world. Who can become the 'light' of service and sit on the throne in the future? One who is loyal, obedient and faithful. To sit on the throne of Baba's heart you have to be obedient, faithful and trustworthy now. Baba tells us that if we sit on His heart, we will be merged in His heart and it will then be easy for us to connect the hearts of others to Him. Their hearts will be pulled to the One up above. Now for all time let there be only good omens over each one of us. It is time to finish the past forever!

Baba is with us. All have to do is to remember Him. He is getting everything done so what do I have to do? Everyone in Madhuban is taking care of everything and providing the facilities for everyone to come and take benefit. All have been sustained with love and are now standing on their own two feet... the kitchen, the garden... everything is sparkling and service is happening everywhere. Today is there is a huge gathering: people are staying in tents... Baba is getting His work done.

*Om shanti*

## DADI JANKI – 2 APRIL 2011 – GYAN SAROVAR INCREASE YOUR VALUE

Increase your value: Be present, understand God's words, accept them with love and they will become practical

Baba has told us to remain tension free. Pay attention to this and you will save a lot of time and your thoughts will become elevated. Think deeply about Baba's great words and let there be such personal transformation within that your old sanskars are no longer there and existing karmic accounts stop pulling you. Don't let the word BUT arise. This word BUT destroys your value – your fortune. We must understand what Baba says and increase our value and merge ourselves in His love. What happens when somebody says the word BUT – what thoughts arise in them? Old thoughts and old habits that will pull the soul. Baba's love is so wonderful that it allows us to truly say past is past. It is not even an effort. With His love, we want to be in the present and not touch the past anymore.

Keep good feelings for your own efforts. Never say 'this can never take place through me'. It is this thought that will stop it from happening. Thought and time are very valuable. This time is wonderful. It is the foundation of all our results in the whole cycle. And the happiness of the present time is measured in good, elevated thoughts. We have so much happiness that any past sorrow is erased. This is something practical that others can experience too. It is through understanding one self that God's great words can take practical reality. There should be no mixture of doubts. When there is attention, you apply a dot – you can put a full stop!

You have to become easy yogis and you give cooperation to others so that they also become easy yogis. This is our aim – no excuses.

Of course there is a list of excuses ready to present itself. However, understand that solutions can also be ready in a second and that Baba is sitting there – responsible. Practically, through the knowledge of drama we see that everyone plays their own individual role. God tells us personally what our role is and we simply have to accept this with love and it will become practical. He says: hey soul you are my child. Just as the Father is Incorporeal and Brahma Baba is egoless and viceless – it is our part in drama to become the same.

Waste is not allowed. You have to be so powerful that only the thought Baba wants us to have arises within us – no excuses, no 'but'. There is still time. Some old ones stay back and new ones race ahead. When I want to fly – nobody can stop me. Just pay attention to what Baba says as much as you have the habit of paying attention to everything else others are saying and doing and you will fly. Have fidelity to the Father and the Husband. Have firm loyalty. Be the obedient child and the faithful wife of Baba. No attachment to any bodily being. One Baba and there will be fortune at every step.

To create such an elevated stage you need zeal and enthusiasm. There are few who are flying and inspiring others to fly and this is because there are subtle desires or attachments. You are under influences and so you can't claim your right to self sovereignty. It is not necessary to rule over anyone else. Don't think this one should do that. Have rule over yourself. Keep your mind and sense organs under your rule. Pay attention to this or they will make you their slave! Baba says: focus the mind on me alone. You must see how much light and might you can draw from Him. When you realise who you

are – you become light and body consciousness goes. Whose child am I? Realise this and become independent of praise and defamation or of wanting respect. All these games of wanting respect make you lose your honour and waste your thought power. It finishes your inner power.

Baba is the Benefactor. Each and every word of His has value. There is only benefit in following His shrimat. Then you become an instrument for the benefit of the world. Understand the sweet things of Baba and from your heart accept them and He will become Your companion! Make this firm commitment from your heart and He then will enable you to do it. The question of HOW will not and cannot arise. This is something practical. That thought of HOW is an enemy. It brings loss. Baba has said that He has come to make you His and take you back. Shiv Baba will then become the detached observer but Brahma Baba will be our companion. It is the power of our remembrance that will bring us into heaven. Whatever Baba has taught us will come with us. Brahma Baba is our companion and we are combined with Shiva – Shiv Shakti. Because Shiv Baba and Brahma are combined – we are being sustained.

Keep Baba in front in karma and in yoga. In karma there is a relationship and in yoga there is power. Be a karma yogi but first you are a gyan yogi. Be simple and truthful and everything will be easy. Catch the touchings from Baba and everything will be clear.

When you have realisation then you don't ask HOW and the old does not touch you. Keep ascending and there will be benefit for everyone. The way will become clear for

*Continues on page 5*

## DADI JANKI – 30 MARCH 2011 – SHANTIVAN HOW WELL DO I KNOW BABA?

Each one of us is playing the part which is fixed for us in the drama. This cannot be changed... but, within that part I am playing I have to take a good look at what I actually have to become. I also need to look carefully at the way I am playing this unique part of mine. Whilst watching a play we look at the other actors. Here, I have to only look at my own self. Am I accurate? Am I becoming complete? This is the Confluence Age and my Director and Creator is that One. He, Himself is giving me signals: Hey soul, what are you doing? What do you have to do? This is the time to play a hero part on the world stage. Now ask yourself: Having been given this hero part to play, am I wasting any time? If you waste time you will not be able to become like a diamond. One who has a hero part to play needs to be like a diamond. One who is playing a hero part will never waste time. If you don't become a diamond then what will you reveal to the people of the world? Now, look at your own self and not at anyone else and ask yourself: Have I become this or not?

Baba creates examples, some of which live in the family. They have no attachments, no desires. If you have a few desires, a little bit of attachment ... then you cannot climb into Baba's heart. One who is in Baba's heart will always look at Baba. If you wish to sit on Baba's heart – and who wouldn't – then ask yourself if you are looking only at Him. Further, am I becoming and doing as Baba wishes? If not, how can you expect to sit on His heart? Baba speaks the Murli to everyone. However, it is personally for me. Do you not think that Baba is looking at you and keeping you in mind when He is speaking the Murli? He is! Whether it was the sakar Murli or it is the Avyakt Murli ... He had me in mind!

Now remember: Baba does not come in every age. He comes ONCE IN A KALPA. And this will not change. We had been searching for Him for

so long... Now, He has come. And what He tells us is so deep. Baba is so deep... the things He tells us are deep and subtle. It is those things He tells us that create love within the soul. They are deep and filled with significance. Take them on board and you will experience bliss. He has been totally clear with me. If you wish you can use those things to place yourself in the Rosary of Victory. Don't waste time thinking about whether you will come in that rosary or not: I AM to come in the Rosary of Victorious Souls and sit on the throne of Baba's heart. Now what do I have to for that? Would you like to make victory the garland around your neck? Do you wish to become the garland around the neck of the Supreme Being? If you were to create a rosary like we used to do in the early days, where would you place yourself? Sometimes Mama and Baba would look at the rosaries we had created and ask why we had placed our own selves so far down in the rosary. Some who should be close put themselves far away while some who are far place themselves close. Eventually Baba said that it was not possible to create the rosary at the Confluence because souls keep fluctuating. However, he also said that some souls will come in the future who will come into the Rosary of Victory.

Is there anything in the world that is worth listening to other than what Baba speaks? He has given each one of us the divine eye and the divine intellect and He is looking to see how we are maintaining those. Ask yourself: How far has my intellect and drishti become divine? Through someone's drishti we can see everything. How much a soul is taking from Baba. How much they are being pulled into other things. Some are so good that their eyes never get attracted. They are happy with the diamonds and pearls they have received from Baba. I sit with You, I eat with You, I play with You... I am happy with being with You... I only

wish to dance with You – this is their true feeling. If they are asked if they want anything they say 'no'. We need to have such realty and royalty. The dance of the harmonizing of sanskars happens when I keep Baba's company. Brahma Baba never had to think about how to manage someone or get on with them. Look at Bap-Dada - He knows how to work with everyone. Such is my Baba. Yes, Baba says He doesn't know what is going on inside each one. However, we feel that Baba does know... He knows us better than we know ourselves and He gives signals and explains. He does everything Himself and then hides Himself away. He is making the whole game, getting all work done and then hiding! However, He can't hide from His children! Do you know Baba as well as He knows you? If not, get to know Him! What is He doing? What is He getting done... Oh God, Your game is so extraordinary! Come close to God and you will really gain the intoxication that I am one who will come at the beginning and go right the way through the cycle, seeing every second of the drama unfold.

There is a guarantee that before Destruction each one of Baba's children will become karmateet and complete. First we have to become completely viceless, then full of all virtues. Am I viceless? Do I have any greed or attachment? Finish these and then imbibe all virtues. If you see any defects, you will absorb them. If you see defects, speak about them, write them down... then what type of business are you doing? Even a warrior would not do such work. In Sindh, Baba taught us the contrast between sato, rajo and tamo levels in terms of the way a soul thinks, operates and interacts with others. All of these have to be satoguni in me, then I can become viceless and complete with all be virtues. Baba is coming tomorrow, listen to His Murli everyday with full attention or you will miss everything you need to hear.

*Om Shanti*

## DADI JANKI – 6 APRIL 2011 – SHANTIVAN WORLD SERVICE IS BASED ON BHAVNA

This is a wonderful drama. Baba is Bap, the Father whilst drama (Ma) is the mother. Drama teaches us that every soul has his/her own role to play. Everyone's part is special. Baba gives us teachings and His Company. When people see us they should feel that God is their companion. This feeling will give people power. Very little time is left. Don't even think of doing something in October or November. Consider that there will not even be another Diwali. Inculcate Baba's teachings deeply with patience, sweetness and love. Drama gives us patience whilst Baba gives us power. In fact, power is required in order to be patient.

We have Pandav Government and my record needs to be good in this Pandav Government. I don't have a job in the government – we don't have that attitude here. It is service I am present on. When service is done with a true heart, the soul earns a huge income. There is a huge income in remembrance. Time and thoughts used in remembrance earn the soul a huge income. There is also income and a great deal of benefit in coming into the gathering. When a soul really feels it is earning an income then it there is great happiness. If a soul has disinterest in everything old but has an interest in earning an income then it will create a huge fortune for the self. If you have the deep bhavna that everyone should be happy then you will also earn a huge income. Open yourself up inside and see the vastness and depth of what Baba has given you. On seeing what you have received you will naturally have the feeling that others should receive what you have received. This is bhavna. Some don't realise the income they can earn. This is often because they are coloured by company. Some stay in the rooms and think their stage is fine... however, my bhavna

should be to let everyone receive. If you are like this then you are missing out on earning. Wherever you go create bring others into relationships that are like milk and sugar. However, don't be so sweet that you make others stick to you.

### *“Good feelings for other souls really do reach them”*

Some feel that they are making intense effort and yet something is still missing. If this is the case, you need to become extremely introverted and look within to see what is really going on. Nowadays there is so much extroversion. Everyone has a mobile in their pocket or in their hand. No one seems to be able to survive without constantly talking on the phone. Even when people come to see Dadi their phone will be ringing! There is so much pleasure in being introverted. Being introverted brings supersensuous joy. Not only would you then experience joy but you would have the ability to know what is inside others – behind their faces – and you would be able to make them happy. Good feelings for other souls really reach them. Many situations and relationships have been made good through bhavna. Some souls think that they are very clever and that what they are doing is very good. However, cool down and use bhavna. Eat and feed others with bhavna. The things that are given to the Yagya are given with bhavna. Very rarely do souls do things for show. The Yagya has been created and is being sustained through bhavna.

An incognito donation is the greatest act of charity. If you do service in an incognito way a great fortune is created. I need to check myself carefully – am I really accumulat-

ing? Or am I being careless or reckless in such a way that I am going into deficit? Baba has told us about the account of effort, the account of charitable actions and the account of blessings. Charitable acts often happen spontaneously. Someone may be having deep sorrow but I remove that. Many are stumbling and lose heart. Some think that they will just become subjects. Through my bhavna I can inspire those souls. Just by my tone of voice I can inspire those souls. I have to accumulate in these three accounts. Some say that they are listening to the same old Murli. In fact, if you don't find new things it means there is still something old in you. In the Murli there are three things: teachings, cautions and explanations.

The first level is to churn: for example to spin the cycle, staying in thoughts of the self. The next stage is when I 'simmer' gyan slowly and purposefully. I can then absorb those things. I think about God in such a way that it removes all pain and sorrow inside.

This is the practice that brings life back into the soul. It is not just once that we have to marinate... we have to do it all the time. Then whatever happens in the mind, positively affects the body and relationships. If there is not true integrity in my service then what will be the condition of the body? These are very subtle things that need to be thought about. Now learn to hold gyan in your mind, simmer it in your mind and you will feel a deep joy inside.

Many brothers and sisters are hiding something away. They are holding things away, hiding them in a corner. Now, I have to make myself totally clear and clean. This is how we can develop true love for each other.

*Om Shanti*

## DADI JANKI – 8 APRIL 2011 – OM SHANTI BHAVAN THE MOMENT FOR PASSING HAS ARRIVED

The moment for passing the degree of master almighty authority has arrived. Have you gained this degree? If you have then whoever comes in front of you will receive a great deal of shakti. Even to listen to gyan takes a certain amount of power. Some get a headache just by listening. One who relates gyan with authenticity never gets tired of relating. Remember who is the One who is enabling us to drink nectar... All I have to do then is to give that nectar to others to drink.

Whilst Baba was in sakar, he remained in the avyakt stage. He stayed in the subtle stage whilst being in this world and this gave all of us the experience of his complete form. We can really take a great deal of benefit by remain silently in the avyakt state. Ultimately we have to go to Shantidham and so before that we have to stay in silence. It's so interesting that silence and science have really 'taken off' at the same time. Science is really advancing and so we need to check if we, as Baba's children, are advancing just as quickly in silence. Baba is telling us how to advance in silence. He says, "Remember Me alone". We are all lovers of the One Beloved. We have to destroy our sins and become pure through remembrance. This can only happen when the soul goes 'inside' in silence.

Baba keeps speaking and my job is to turn within and to contemplate deeply and to absorb that and get absorbed. When I keep something beautiful of Baba's in my mind then I am attracted to be Manmanabhav. When only God enters my thoughts very deeply I can go one step further and churn. I then receive both butter and buttermilk – both of which are very nourishing.

To extract butter takes sense and skill. Baba used to give us butter on apple and on very hot and thick chappatis. Baba looked after both our bodies and our minds. He gave us so much sustenance. I am sure you must be doing service in the same way as Baba did.

### *Baba said “Purity is the mother of peace”*

I remember one elderly man coming to see Baba. He told Baba that he really needed peace. However, Baba told him that he would not receive it. I was witnessing this scene – Baba telling this brother that he would not experience peace! However, later I understood what Baba meant when he said that. Purity is the mother of peace. Unless there is purity within, the soul cannot experience peace. Baba then told me to explain to him. In fact, it is with the power of purity and yoga that a world of peace is being established.

There is so much importance and significance in purity. I need to have so much value for purity. If I have even a slight thought out of the line of purity then I cannot be called Baba's child at that time.

Even a drop of poison in an urn of nectar spoils the whole urn of nectar... Think about this deeply. If you go into the depths of just this one aspect: Where there is purity there is peace, where there is peace there is love, where there is love there is power... there would be such much realisation and experience within. When there is purity there is honesty. When there is honesty, there is so much love.

In order to make the children belong to Him, Baba has given so much love. A soul who experiences love from Baba does not take long to sacrifice and they will not want to be separated from Baba. Baba's love is teaching me how to be truthful.

All the expansion in service is thanks to Baba's love. It is Baba's task to establish the Land of Truth and Baba wants me to be in that land.

Last night I took Dadi Gulzar on a buggy ride around Shantivan. We went everywhere including to Manmohini Complex. We had such a good time! We saw how much expansion has taken place! It is amazing to see the work Baba has got done since the early days.

We should not think that we are busy! If you get caught in waste you will definitely think you are very busy.

If anyone asks if you are ok, you should say, 'Yes, sure'!!!

To talk about why something has happened or what has happened is not part of our royalty. So something happened... just keep moving on! Baba wants us to stay in deep intoxication so that the soul can stay flying in zeal and enthusiasm. There are so many souls now ... intoxication automatically emerges of who created all of this! Just seeing everything the eyes open... People easily experience the atmosphere when they come here and the comparison with the world is so great that they really get attracted.

*Om Shanti*

## DADI JANKI – 26 MARCH 2011 – OM SHANTI BHAVAN TURN THE MIND TO GOD AND EXPERIENCE TRUE PEACE

Do you feel that peace is the garland around your neck? Baba has told us that peace is our religion. There is now no reason for us to become peaceless. In fact, the mind loves to receive peace from God and this is why it is said, 'Turn your mind to God'. The intellect comes later but first the mind is focused on God. Manmanabhav is a wonderful instrument to make the mind be peaceful. If the mind goes here and there then it can never be peaceful. The mind is up above, the body below ... we are sitting in white clothes with empty pockets.

### *To practice positive thinking is very important*

To practice positive thinking is very important. Positivity is like nectar whilst negativity is like poison. If you fall into negativity not only will you get affected but you will infect all those around you. This is why we need to remain in positivity and think positive thoughts.

In fact, the heart yearns for positivity. The soul yearns to stay in its original state. God has placed the urn of nectar on my head. I have to drink it myself and give it to others to drink. If you want to be very good then you will have to be careful with your own mind.

It is we children who have made Baba into the World Benefactor. He gave us all benefit and thus He became the World Benefactor. As the child of the World Benefactor how should my face be? My face should be constantly glowing. However, it can only glow from deep inside when I have only one Baba in my heart because it is by having one Baba only that there is deep, deep happiness in

the soul. When others see me, they should be able to see whose child I am. What is Baba telling us these days? He is saying 'be quiet', 'remain within'. Close your ears to anything that is not useful to you. Keep your mouth closed – speak and think only that which is necessary. If you wish to be free then be careful of your actions. If your happiness decreases it is because you have either seen, done, thought or said something wrong. Who is my teacher? It is the One who establishes a true religion and true kingdom.

I have to pay attention not to take the law into my own hand. If you do, you won't be able to experience constant happiness and you won't be able to draw Baba's love. Before the world of truth can be established I have to become totally truthful. Baba gave us a great deal of understanding and made us into ones who are worthy to do service. If you don't have gyan and yoga within then what would come out of your mouth when you speak? Think about it! Would it be something that would give others happiness?

It is time to check the self carefully and honestly. Am I making any type of mistake? Only if you give or take sorrow then you will have so much sorrow inside that you will only be able to give sorrow. If you make effort to finish all your weaknesses from your heart then Baba will give you so much love and fill you with so much power that you will feel it easy to become as Baba wants you to. Some are not becoming as Baba wants them to because they don't have control over their own sense organs. They are weak because they don't see or follow the Father. They are not honest with their own selves or with others. In fact, if you want to make deep effort just see and follow the Father.

Make sure your thoughts, words and actions are created on the basis of seeing the Father and following the Father.

You have seen Baba (through the divine eye and divine intellect) and you know Him. You know how He is and how He gets things done. He gets things done through those who interact with love and truthfulness. There has been so much service throughout the world but no one can say 'I have done this'. No, it is Baba's task and He is getting it done and will continue to get it done. Baba is sitting there and everything will work out well. Bring Baba in and all your worries will disappear.

When you listen to the Murli listen in such a way that you know what you have to do right now. Listen to the Murli with the attitude that I am going to do what Baba is teaching me right now. I don't have to worry about anyone but there are some things I do have to do. I have to actually follow and practice all the laws and Maryadas Baba has taught me. Secondly, I have to realise that others will copy what I do and thus I have a great responsibility. How has all this expansion taken place? It has taken place by people seeing those who are good examples – who perform good karma. They have seen the practical lives of BKs. It is not a matter of staying in Madhuban for a long time. In fact, as quickly as you fill yourself and go to do service, Baba will give you that much love. It is not a matter of where you are but how you are. Wherever you are, fill yourself and your whole life with truthfulness, honesty and love and you will do service at every step. In this way, you will create a huge fortune for yourself and also help others to create their fortune.

*Om Shanti*

## DADI JANKI – 29 MARCH 2011 – SHANTIVAN HAVE I COMPLETELY ACCEPTED GOD'S LOVE?

Today check yourself: Have I taken all the love God has to offer me? Do I feel that having attained You (God) I have attained the whole world? Not only the Earth but also the sky... And it is He who takes us beyond the Earth and the sky. No religious founder can take the soul back home. It is only Baba who can do this. In the world there is so much sin and corruption and our task, along with Baba, is to make the world completely pure. Ask yourself: Having heard so much and having been given so much by God, what do I have to do now? My task now is to keep good wishes and pure feelings for ALL souls. Before I can do this, I have to keep pure feelings and good wishes for my own self. Baba has asked us to do this and if I am obedient I will agree to do whatever Baba says.

Remember that this Yagya belongs to Baba and we are doing service of the Yagya. This is the sacrificial fire of knowledge in which everything – absolutely everything – has to be surrendered. To surrender means to keep my thoughts, words and actions elevated. To surrender means to give up my old sanskaras and nature. If you still give the excuse of your sanskaras and nature then what does it mean? Remember that the Lord is pleased with a child who makes effort from her heart. If you continue to make mistakes then there has to be a consequence. You will receive a vision and you will also experience punishment. Baba has told us everything in advance. We will not be able to say that Baba did not tell me something. I have to pass with honour and therefore I have to be obedient and faithful. I have to forget everything and with the power of yoga finish all my past karma. This is what we all have to do now. The proof that all the old negative karma is finishing is that the soul will not have negative thoughts. If

I want to achieve this stage then I have to keep Baba's orders on my head. Keep His orders on your head and you will feel that Baba's hand is on your backbone. Baba is my backbone.

There is a great deal of power, bliss and love in the Murli. The Murli may not always be sweet because Baba sometimes says that a bitter medicine is required to cure all sickness. But the Murli is always wonderful. We cannot blame maya for anything. Remember that any mistakes are your own and cannot be blamed on maya. I need to take responsibility. Baba opens our eyes and ears so that whatever we say, we say carefully. We have to think, speak and act with care.

Baba's Murli reaches all around the world. All the children who leave Madhuban to go on service listen to the same Murli. When you listen with love, attention and good feelings then you will experience attaining the wealth of happiness and peace. Your feet will then not touch the Earth. We never saw Brahma Baba's feet touch the Earth. God is speaking and His great versions are for me personally. Do you feel this? What is He saying to me? He is telling me not to remember anyone except for Him. He is telling me that nothing is the fault of maya but rather of the influence of bad company. He is telling me that if I don't make good effort then I will make mistakes.

When there is love power comes and when there is power love comes. It is through Godly love that the soul becomes complete. To become complete is our aim. One who becomes complete will naturally get a high status in Satyug. We need to keep the goal of attaining a high status in the Golden Age and it is through Godly love that we become complete and attain that

status. Wherever there is truthfulness love comes naturally. A soul who is true pulls God's love and that love makes the soul complete. Whenever we come into connection and relationship we feel the effect of that love. It is God's love which has created such a huge gathering (Diamond Hall was full).

Now go deep and ask yourself if you have taken all that God has to offer. Recognise that this is the only time to do that in the whole cycle. Then make effort from a true heart and you will pull Baba's love towards yourself and that love will move you towards your state of perfection.

*Om Shanti*

*Dadi Janki : Cont. from page 4*

everyone. Do pure charitable acts only then can you be content.

Understand what the subtle region is. Inside should be extremely subtle. When the soul is full of knowledge it can become complete and avyakt. I am a trustee. Be alert, accurate, all-rounder and ever-ready. Wherever you are needed – be there. Be present and there will be service where you are. Through your understanding, depth, love and truthfulness everything becomes clear and easy for others. For this you need to be constant. When you are constant, you experience greater success with less efforts. If a child is naughty – he does not want to sit in the Father's lap but when he gets a hug – he says thank you and becomes quiet. Stay in spirituality and Baba becomes your Companion. Don't be busy for this. Drink the nectar and become sweet and make others sweet. All that He says is imperishable and it makes us immortal.

*Om shanti*
