Mahabharatha is not a onetime event. It is not for one Arjuna to encouraging him to fight the physical war. Even today Mahabharatha is going on inside everyone’s mind. Supreme God reveals the secrets of life to all the souls (Arjuna), who seek the real truth. With Gita one could get instant immortality. If one could understand the real significance and meaning behind every shloka then he can become more stable mentally, emotionally and will win over the vices of his mind attaining higher stage.

Today generally ‘might is right’ principle is followed in the world which is the cause for injustice. ‘Right is right’ another principle which is also not so perfect and denotes *rajoguni*. ‘Right is Might’ is the accurate principle. Ahimsa explains this. Absence of light is darkness so divine and evil cannot co-exist.
