Dadi Jankiji's Message for 40 Years of Service in Canada

Om shanti, omshanti, omshanti. Firstly my mantra of om shanti goes deep within. Who am I, who do I belong to and what do I have to do. I am a soul, Baba is mine and drama has been made accurately. I remembered that you were celebrating 40 years of service in Canada. First I had sent Denise and Chandru. Chandru ben is now Anubhuti and Denise ben is here and has become instrument to serve in all directions. I'm happy. Even before New York, service began in Canada. It is the wonder of Baba. I've just met Arvin bhai, he lives very simply but the feelings of the heart show that he is a very elevated soul. It's very good. Since the special celebration of the new beautiful building that you created in Canada, I haven't return in foreign country. In 40 years you celebrated so much service in Toronto and all over Canada. Just go around... I have not travel lately, but in the beginning I traveled a lot. Now I can see that all over the world, it is the wonder of my Baba, He has made me the instrument and I always say that He is the One who is getting things done. He makes someone an instrument and the instrument says, I didn't do anything, Baba did it. Baba says, I didn't do anything, the child did everything and the child is earning an income, but Baba inspires the child. Now read the murli attentively, study each word. Shiv Baba has made Himself detached and it is through Brahma that He got the service done in such a wonderful way, and He made some child or another instrument. Brahma Baba also said, I didn't do anything, my child is doing. It is the wonder of Baba, you're celebrating 40 years and it is a matter of very great happiness. I love to see how you are moving forward, services increasing you are not lacking anything, nothing should be missing. Our Baba is watching. It is the wonder of our Baba and the wonder of Baba's children. Baba is the One who

is getting things done through others. Who should I put in front, who should I put forward. I would put myself. I'm not speaking with arrogance. If I was speaking with arrogance, Baba would pull my ear and say, you should never say with arrogance that I've did something or I'm doing. You have to finish off the arrogance. We are fortunate, multimillion times fortunate. Wherever you put your feet, there is multimillions. Brahma Baba is the fortunate chariot. And we are the multimillions times fortunate. Why? Because he is the one who is getting things done, he is the fortunate chariot; Shiv Baba is working through him and at every step that we make there is multimillions. Look, take a photo of my feet. Baba asked us to put out our feet and we didn't realize what Baba meant by telling us to put our feet out. He said, child wherever you put your feet, there is multimillions. Multimillions are earned in your fortune. It is such a great fortune.

O.K. I would love to send you a gift, but everyone has already left for Canada now. So take drishti from Baba and eat toli. Listen to what Baba says. Thank you. Baba says, always see who is speaking and what He is saying. Pay attention to who is speaking and what He is saying. Listen to everything so that it becomes part of your dharna. And then you become an example. The first one in the foreign countries who put on the white clothes was Denise, she changed her place of residence, and she got rid of all her lokik things. There should be nothing lokik in your remembrance. This is why renunciation is important. Through renunciation, you get good tapasya, and through that there are many forms of service happening.

Thank you very much, om shanti to everyone.

Sr Mohini's Sharing on 40 Years of Service in Canada

I don't know how many countries and how many places are with us at this moment, but I think that other parts of Canada and the USA are definitely with us, so I want to say om shanti to everyone, good morning. You know that when we think of time, it is very unmanageable. So I say, time is something that doesn't stop. It never stops for anyone. Even if you remove the battery thinking that it is not going to move, but by the time you look at another clock, the time is gone. Time is really at its own speed, never fast, never slow. With our own spiritual practices where Baba says to always be at present and think of future, we don't really connect with the past. But in the right moment when I am here celebrating 40 years of service in Canada, so many beautiful memories come into my mind. When I came I was in my 30 and I was young and I still could run. In 72 I got a request from Dadis to come to London. But it took me two years to get the paper process done. And by then I came to Germany because someone was inviting to come. So from Germany I spent about three months in Europe going in nine countries in a van. Then I got this invitation to visit Canada before returning to India. So the family who invited was in Dartmouth Nova Scotia. He was professor of mathematics, and very connected with the university. He invited me to go to the university to give a talk. Then he arranged for me to travel all over Canada to give talk in universities. Then I went back to London.

One thing I have and I want to underline is, that whatever bhavna, whatever vision we have, which Baba has given us, we should never lose it. That means we should never lose bhavna towards anyone. We look at this person, and we know that this soul is Baba's child, but the spiritual journey brings many things, still we shouldn't go into the sanskars of others. One thing I like to maintain towards a country, towards a center, is that each Brahmin has his reason and yes

Baba has chosen you and eventually everyone is going to reach the destination. Everyone is going to fulfill the hopes of Baba. And that is really where the true service begins. I always felt that it is not me who has to do service, but I have to prepare instrument to do service. And that really comes from Dadi Gulzar. This time I was telling Dadi that she values everyone. Of course Baba does, but she really recognizes everyone, gives importance, gives something special, etc. And that brings in a lot of courage, a lot of stability, a lot of feelings of love and belonging in the soul. So I will say that for Canada, the original souls kept this flame ignited in the yagya and it helped us to expand. Dadi Janki used to say that wherever we put our foot, there has to be a memorial. So my feeling is that wherever you get invitations, wherever you go, you know that seeds are being sown and that at the right time these seeds will bear a lot of fruits. So I'm very very happy and also extend my congratulations to the family here in Canada. Now every family has grown in each of the centers of each province.

We are one world family, and definitely generosity, big heart is the specialty of the Canadian family always, always. I am very very happy to have such a family in Canada so that wherever I go it is like my home. It's God's family, but also my family. So once again good wishes and whatever years it took to reach here, it will take fewer years to reach the ultimate. We don't have another 50 or 60 years. Like Gayatri bhen said, there are some areas that you could touch. There is a lot of openings in many areas. So what I'm seeing is that very soon, you will be able to do that level of service that Baba wants us to do.

So again lot of good wishes, Baba's blessings and congratulations for your 40 years of spiritual service and sustenance with courage, love, zeal and enthusiasm. Om shanti.

Bhog Message • November 9, 2014

Om shanti, Om shanti, Om shanti. Taking everyone's love and remembrance, I sat with the thought to offer bhog to Baba on behalf of the family, and when Baba invoked me and I found myself in subtle regions in front of Baba, there was that beautiful feeling that Baba was welcoming all of you. You all reached there right. So I saw the whole family present with lot of enthusiasm, lot of love.

First I offered bhog to Baba and said that everyone was merged in love and doing karma yoga. Everyone is happy and busy. And this bhog is token of that. Baba accepted bhog with lot of love. Then Baba was sharing very lovely and powerful drishti, because He does more through drishti than through words. What was He doing through drishti? Baba's drishti are rays of power and light, and we sometimes can see the golden and silver rays. They were going all over everyone as a pen that is drawing something. I was observing and seeing how Baba was working and doing something on everyone through His rays. I kept watching and when my turn came, I said to Baba, what were You doing through drishti. Baba said, all the children are very sincere in making efforts, so Baba is making them complete because of their sincerity.

So I said to Baba that it is not that we have to become complete, You're making us. Baba said, you're doing the work you can do, but Baba is just filling in whatever is missing, dispelling whatever weakness there is in the child. He is making it a complete picture. He has to make it a full picture. So that was what Baba's drishti was doing to each one of us.

Then Baba said, Father has only two things to give, one is love, and the other is blessings. Lots of love all the time. So Baba is asking the children, do you feel Baba's love all the time? Then He said, do you experience God's sustenance all the time. The

Supreme Parents, Baba is sustaining you. Sustaining means: eating, feeding, walking, moving around; everything is taken care of in sustenance. So Baba said, Baba's love and sustenance is what He has, and whatever He gives through drishti or whatever He has to say now, is just blessings. Baba said, teachings are given by teacher and in the relationship of student and teacher, but Baba is talking as the Father. As the Father it is love and blessings.

I was looking at Baba and He said, to study the relationship of student and teacher is what you all have to think about. You know how much you study and become worthy. This is the work He gives. Then Baba said that the Satguru is always with Baba. What does the Satguru does, He helps you to implement through power, so that whatever blessings you receive, you become the embodiment of it. Because it is very important.

So for that Baba said three things: first, what is important for the family is space, whether at home or at the center, you have space, whether it is a room or a small corner, but a space. Second is family, and third is bhandara. Because everyone has bhandara, right, even if it is limited. But Baba's bhandara is unlimited. So today Baba gives the blessing that the space remains completely pure, everything, vibrations, words, attitude should be completely pure. We call it a sacred space, no. So total purity in the space. Because when there is purity, peace, love, etc. are experienced. For the family, Baba said, always very loving and Baba's bhandara always full.

So today Baba's blessing is that the place remains completely pure, no obstacles of anger or greed, etc., totally pure. And family to be always loving. Whatever the sanskar of someone, what I have to do is just be loving. Even if you have to say something because someone doesn't understand, doesn't act in the right

Bhog Message • November 9, 2014

way, just be loving. It is very very important. And Baba said that He also wants to bless the bhandara here. Then He added that today He wanted to give a big massage to the sevadharis. Baba's massage is very subtle as He takes away whatever has gone in the body in the form of tiredness, or whatever. He takes away any traces of tiredness, fatigue. Baba specially said that He wants to give all the sevadharis His massage through His light, through His love. So Baba remembered all the sevadharis. You're all sevadharis, right and in whichever way it may be.

Then He said, that now that it is 40 years, you all think about the future. Baba said that what the children have to do is to always remember what is the aim, what is the task. And you will keep planning within that aim and task, but drama will also unfold in many different ways which might not be your planning. Baba said that because drama has to get this task accomplished, you're not the only ones who have to do it. It also has to happen according to drama. Baba said that in those unknown scenes there will be surprises, challenges, attainments; all of this will come. So He said that what is important for the children is to always keep the aim, what I have to be and what I have to do. Baba's task is unlimited and within it I have my part to play. So always remember that this is what I have to become and what I have to do.

So I said to Baba, what kind of surprises? He said, often you make surprise for each other, you celebrate. Because you're all living in kalyug like a lotus, Baba always gives surprises to the children, individually and as a big reward. Some might say that it is the result of tapasya or of renunciation, but Baba said that He constantly gives to children. What do parents do... they bring a gift and tell the child to close his eyes to give the gift. So Baba said, yes you're all doing service and will continue to do so,

but there will be many gifts on the way. And because each child is sincere, whatever he cannot do, Baba gives you a little surprise. And at times you will be surprise with your own self, 'I never thought I could be like this', 'I never thought I could give up this', and you will find it so easy. It's a surprise from Baba.

So to complete whatever service happening in Canada, Baba don't only give good wishes for the future, but He also give congratulations. The future is successful; it is guaranteed that the task will be accomplished. You are all good instruments and it will happen at the right time. Not faster, not slower but at its right time. So don't be impatient as drama will reveal more and more. And those who understand the signals of drama will collectively do it together. This energy will happen more and more.

So then I said to Baba that we were still waiting for some permits to complete this house, and asked to Baba what should be the name of the house, Baba said, in fact children are more sensible being in a country and knowing the language and the culture, so Baba gives the children this right to decide.

And I came back. Om shanti.

Sr Denise (Madhuban)

Hello, Om shanti. I've been enjoying looking at the slide shows. I remember once Avyakt BapDada said, if ever you feel 'down' in your life, open your story book of Brahmin life. So you keep those stories as they impact so many people, not just now, but in the future.

I remember when we came, I landed in Gander, and I was with Sr. Chandra who is now in Mauritius. It is so nice to watch the slide show, and see how we were so young and had no clue of anything, but we were very much inspired by Baba and we always felt that Baba is the One is making us move and making things happen. In some ways our stories resemble the stories of the Dadis at the beginning of service in India.

I'm seeing you all with the mind's eye, not with a picture. I think that it is really amazing how Baba made things happen, creating things all over the world. I think that if you made the whole world disappear and only keep the story of the Brahmins, you would have the complete story of the word.

I want to congratulate you all on 40 years of service in Canada. And I would like to say how so many people in other parts of the world are giving their good wishes and feelings of support that everything should continue in a very good way. Although I didn't stay in the Canada, I kept very good contact with souls there. So it is very great to be with you all at this time and I give you my love, good wishes and good feelings. And I'm sure that everything is just going to go higher and higher and better and better. So lots and lots of love to everyone.

Sr Chandru

I am glad we are making a connection, and congratulations, congratulations. The tree of Baba in Canada has grown and spread out coast to coast.

I remember Canada on Caroline Avenue. I still remember. We arrived in the snow, and didn't know exactly where to go and who to reach. After a while we were given an apartment in Mississauga and Dadi Prakashmani visited us. It was a very adventurous time as there was no centre in America then. Service started through challenging times and not through hardship. It was even enjoyable.

According to drama we were to move in the USA. Toronto was my first step in Western world. I had to learn the culture, the language, etc., but Baba made me understand that we are one family. We are brothers and sisters and we have to live together and this is the practical test. This experience of living in my practical life with so many different cultures, etc. made it easy and harmonious in the relationship and created unity. And this is how the service grew, only on Baba's principles.

Everybody is making very good effort and growing very fast. There is puka Brahmins everywhere and I'm very happy.

Again congratulation to all of you and you will keep growing, keep expanding. And may Baba's deeps (lamps) keep shining in the world. This is my good wishes for all of you.
