Dr Sister Salwa and Dr Sister Nadia : it is Destiny that they are going to be lucky divine neighbours

Dadi Jankiji's message to Morocco on June the 15th

(one year of Casablanca and first visit of Jayanti bhen – Shantamani Dadi's day) :

"Baba's blessing is wonderful today, (May you constantly have a crown of light and carry all your activities with a signal through your thoughts. The thoughts and time of the children who remain constantly light are never wasted. They only have thoughts that are going to become practical. Just as you clarify something by speaking about it, in the same way, they carry out all ,their activities through thoughts. When you adopt such a method, the physical world then becomes the subtle region. For this accumulate the power of silence and wear a crown of light.)

Many subtle thoughts are working away. You all liked being here did you ? there is many multimillions fortune being earned at every step. It is a very old place where Sindhis have gathered and lived for a long time.

The service here will be very unique and different. Give my tons of love to everyone.

Shall I come to Casablanca ?!, I have to come, you have inviting me, i have to come ! I don't know how Baba is doing His wonders. God's magic is happening so let's see what happens. No corner should be left. OK."

(Dadi then said that she would ask Sister Urvashi to send Dadi's last points, see hereafter).

"Baba spoke beautifully of the importance of 'yoga', remembrance today.

- 1) Remembrance makes us clean
- 2) Yoga empowers us to face any kind of situation. Nothing is new; we become unshakeable and immovable. Neither do we come into upheaval nor do we bring others into upheaval.
- 3) Yoga removes the alloy and makes us real gold. Time and attention need to be given to remove the alloy as it doesn't allow one to remain happy in yoga and service. Remembrance is to stay in awareness (smriti) and service is to enable others to stay in awareness."

Our Multimillions thanks to all Baba's cooperative children who helped in creating 'Wahat El Salaam' ('Oasis of Peace' Baba's House) :

Sister Wajeeha from Kuwait, Sister Shaikha from Kuwait, Sister Gopi from UK, Sister Aruna from Kuwait, Brother Ali from France / Morocco, Sister Rachel from Nice / Algeria, Sister Annie from Paris, Sister Sarah from Temara, Sister Dalila from Marseille, Sister Leticia from London / Algeria, Sister Myriam from London, Sister Corinne from Paris, Brother Abdelkarim from Paris, Brother Jean Louis from Lyon, Brother Laurent from Nantes / London / Africa, and again Sister Gopi from UK, Brother Renaud from France. **And, great gift : Brother Renaud from France is going to come and stay here in Casablanca, bringing his experience and cooperation to Morocco !**

Baba's magic in all small details :::

we want to share with you, how we saw really truly Baba did everything big and small, for instance, all the gifts received for his house were magically matching the need or the style : we needed a Shiv Baba and a beautiful giant One came, we wished a photo of our Dadis but no time was there to make it and it came beautifully framed, a royal lamp came matching the curtain, a silver fruit bowl came matching the carpet, and so on...

Sweet angel Sister Nadia, Oasis of Peace Niwasi, singing divine melody of love for God.

We feel this program was a small preparation for something bigger and very special to come. As per Jayanti bhen message during the tree planting ceremony : 'the seeds of peace have been planted and the tree is going to grow spreading the fragrance of peace in the whole Region'.
